with automatic Steam Machinery of the latest
and most approved kind, and we are well able to
compete in quality with the best English makers.

The finest ingredients only are used, and the
utmost care and cleanliness are exercised in the
manufacture throughout.

BOMBAY SODAS."

We continue to supply large bottles, as before,
to those of Extra Charge, to those of our
Customers who prefer to have them to the
ordinary size.

COAST PORT ORDERS.

whenever practicable, are despatched by first
class mail after receipt of order.

For COAST PORTS, Waters are packed and
placed on board ship at Hongkong prices, and
the full amount allowed for Packages and Expenses
when received in good condition.

Courier Order Books supplied free on
application.

The delivery of the English mail was begun
at 2.15 p.m. yesterday.

By a new regulation, the Chinese New Year's
day, which falls in early February, is to be
regarded as an additional public holiday at Her
Majesty's naval establishments at Hongkong.

The attention of mariners is directed to the
notice which appears in our advertising columns
announcing the new post office of "Ho Bird's Nest Roost,"
in the Macao Fort road, southern entrance to Canton.

The following is a List of Waters always kept
ready in Stock:-

PURE AERATED WATER

SOA WATER

LEMONADE

POTASH WATER

SELTZER WATER

LITHIA WATER

SARSAPARILLA WATER

TONIC WATER

GINGER ALE

GINGERADE

LEMON SQUASH

RASPBERRYADE.

No Credit given for Bottles that look dirty or
greasy, or that appear to have been used for any
other purpose than that of containing Aerated
Waters, as such Bottles are never used again
by us.

HONGKONG, JULY 1st, 1895.

EXCHANGES continues its downward path,
and the Government, notwithstanding its
contempt for unofficial opinion, must, we
should imagine, be beginning to think that
after all the spring of this year was a very
unfavourable time to borrow in gold. It
will be remembered that when the Loas
Bill was before the Legislative Council in
January the Hon. G. P. CHATER, Hon. T.
H. WHITEHEAD, and Hon. E. E. BELMONT
all strongly urged the Government to post-
pone the second reading for six months,
pointing out the uncertainty attending the
gold value of silver, Lord HERSCHEL'S
Committee being in session at the time and
the reassessing of the Brussels Conference
pending. The Hon. H. K. CARL did not vote,
and the Hon. J. J. BELL-IRVING voted with
the Government, so that the unofficials
were not so united on the point as might
have been desired. Nor were Mr. CHATER
and Mr. WHITEHEAD quite in agreement; the
former advocated borrowing in gold rather
than silver, but considered the time unsuitable,
while the latter not only thought the time
for borrowing in gold unsuitable, but was
opposed to borrowing in gold at any time and
advocated a silver loan. Mr. WHITEHEAD
urged that it was most unwise for a silver
using colony to contract a loan in gold at
that time, when the immediate and future
gold value of silver was shrouded in bound-
ary uncertainty, greater than was ever
known. "Look sound financial principles are
followed," he said, "the colony's loan should
be in silver and not in gold. For a silver
using colony to contract a gold loan now
is to indulge in gambling at the risk and
expense of the ratepayer." The Govern-
ment, however, thought the risk was not
very great and went in for the gamble. We
have the result before us. The Colonial
Secretary, in his argument in support of
borrowing in gold, pointed out the apparent
saving in interest that would be effected if the
loan were placed in the London market, the
advantage being subject to increase or
diminution according as exchange might rise
or fall. The advantage, however, he said,
would not be converted into a relative loss
until taking the difference of interest to be
a half, three-quarters, or one per cent. re-
spectively, the average of exchange had
fallen by over 3d., 4d., or 5d. respectively
to the dollar. Well, the difference of in-
terest was one per cent. and exchange has
already fallen 4d. To-morrow will prob-
ably see the apparent gain converted into
a positive loss and in any case the possible
saving was utterly insignificant to cover the
enormous risk the colony incurred by con-
tracting a gold instead of a silver loan. Another
retreat of the Colonial Secretary's

is worth recalling. He said:—"The pass-
ing of the Bill will not compel the Crown
Agents to raise the loan at once, but it
will enable them to promptly seize the
right moment for raising it and in the
meantime to obtain temporary accom-
modation on most favourable terms,
if for any reason it should be found
desirable to defer issuing the loan. As to
the right moment for issuing the loan they
will have the benefit of the best financial
advice in London, and it is of the utmost
importance they should be placed in a posi-
tion to take immediate advantage of it." But
the Crown Agents did not want any of
the best financial advice in London to tell
them when to issue the loan. The moment
to issue it, from their point of view, was
the moment they got the chance, so as to make
sure of their commission. Naturally they
are not troubled with any philanthropic con-
siderations in their relations with the Colony
and it was not to be expected they would
give the Colony time to change its mind or
that they would in any way run the risk of
losing a profitable piece of business by delay.
If the Colony likes to play the part
of a Juggins, that of course is the Colony's
look out, not theirs. Consequently the loan
was issued in April when exchange was 2s.
8d.; to-day exchange is 2s. 4d. There is,
however, one saving feature: the whole of the
money is, we believe, still in sterling, none of
it having been remitted yet. It is earnestly
to be hoped it will be allowed to remain in
sterling until there is reason to believe ex-
change has reached something like its lowest
point. But look at it how we may the
whole transaction once more shows "with
how little wisdom we are governed."

THE ENGLISH MAIL.

The P. & O. steamer *Melville*, with the English mail of the 2nd June, arrived yesterday. The following telegrams are from Ceylon and Raagoo papers.—

THE CALABRIAN AND THE ROYAL WEDDING.

LONDON, 14th June. It is considered probable that the Calabrian will come to London to be present at the Duke of York's wedding.

THE CIVIL SERVICE EXAMINATIONS.

LONDON, 14th June. In the House of Lords, Mr. Viscount Cross announced the name of Mr. Gladstone's successor to Mr. Bulwer on the 8th instant regarding the Indian Government and Mr. Paul's resolution.

Lord Kimberley, answered that the Indian Government would be asked to consider the matter from all its bearings, and if unable to find any more fitting, he would report to the Queen.

Lord Salisbury said he was rejoiced at this assurance and he earnestly appealed to Government to resist the unconstitutional encroachment of Radicals upon the provinces of the executive.

OBITUARY.

LONDON, 15th June. The death is announced of General Frederick Chisholm.

The death is announced of James Claudio Erskine.

CAICHEE: LEICESTER C. NOTES.

LONDON, 15th June. In the cricket match between Leicester and Nottingham, the latter were beaten by fifty-seven runs.

THE ASCOT GOLD CUP.

LONDON, 15th June. The following is the result of the race for the Ascot Gold Cup:

Marsion... 1
Buccaneer... 2
Raginende... 3

THE PERSIAN CONMISSION TO RUSSIA.

LONDON, 15th June. In the League last night Lord Rosebery, in reply to a question, said that the Persian commission of public works to Russia was merely a renewal of the concession granted in 1880, and his Lordship saw no reason to object to the arrangement.

THE N.W. FRONTIER.

LAHORE, 15th June. It is reported that it is not necessary to keep British troops any longer at Khela.

The latest news from Kabul shows that the Amir is completing all arrangements for a really solid camp in the Hazara. Profiting by last year's experience he means to concentrate an exceptionally large force in the country without failing to do the necessary preparation. He has this advantage that there are no disturbances elsewhere this summer to distract his attention.

CORRIDOR.

ALLAHABAD, 15th June. It is hoped that the difficulty which threatens to befall to our coriolite may be circumvented by a change in the manner of loading cartridges. If they are so loaded that they cannot easily be pulled out of their cases, there is a chance that the corrosion which prevails in India and mingle with the sand, will not be able to penetrate them.

THE DROUGHT IN CHINA.

PAGE 16.

Owing to the continued drought in France the French Church have suspended duties on oats and hay, and the days of fast and abstinence among all nations. It will certainly bring the home to young Americans, if it does no more.

"Is China the worst part of your journey?"

"Yes, I am doing the worst part. After having got through the French Church without difficulties, but they are not of much use, and the Chinese are different. We have been told that the Chinese were not aware of the exact nature of the French demands."

"And what is the object of your tour? What does it prove if you succeed?"

"It is chiefly educational. I have always had a strong desire to travel, and my trip before I got to China, and I hope after I get out, will go to prove that the French Church is not the only one which has the right to demand what it wants."

"These Chinese documents are sufficient to open the tightest gates in China, when only officials are present. It is the unaccountable nobs that yell at my heels all through the country that are the greatest nuisance."

"And what is the object of your tour? What does it prove if you succeed?"

"And what is the object of your tour? What does it prove if you succeed?"

"It is chiefly educational. I have always had a strong desire to travel, and my trip before I got to China, and I hope after I get out, will go to prove that the French Church is not the only one which has the right to demand what it wants."

"These Chinese documents are sufficient to open the tightest gates in China, when only officials are present. It is the unaccountable nobs that yell at my heels all through the country that are the greatest nuisance."

"And what is the object of your tour? What does it prove if you succeed?"
